

Winter Soldiers Victorious at the Battle of Trenton, 26 December 1776

Stand with the Winter Soldiers!

A Campaign to Support Brevard County First Responders and Medical Personnel

Like the ‘Winter Soldiers’ who stood with General Washington in December 1776 at a time of great crisis, today’s Winter Soldiers (WS) are the first responders and medical personnel on the frontlines of the coronavirus crisis—risking all on our behalf. The Brevard County Stand with the Winter Soldiers! Campaign aims to focus and enhance the efforts of charitable groups and individuals to provide tangible support to our Winter Soldiers battling this terrible disease.

Types of Support:

- Scarce Medical Supplies--especially personal protective equipment (PPE--masks, gloves, etc.--whatever is in short supply). Please contact Hospice of St. Francis (Amanda Herrnkind, 321-634-2492), our county-wide partner for MED/PPE, to arrange delivery.
- Food--ready to eat, high quality food donated by local restaurants and diners, delivered by WS support volunteers.

Supported Organizations:

- We need your points-of-contact to identify particular needs and to arrange deliveries.
- We also need your protocols for WS volunteers to follow in handling and delivering donations. All of our WS support volunteers will be masked and gloved, while on duty.

WS Support Campaign Co-Leads:

Alex Goodale - 703-338-8362(c), email - goodalealex@gmail.com
